network health scorecard

Looking for a way to assess the health of your Network?

Answer these questions for a basic network diagnosis of strengths and areas of growth. Refer back regularly and you can use your score to identify and track progress in key areas of network development. (We suggest quarterly.)

How to use this scorecard:

- Ask each network member to fill out an individual scorecard.
- Enter individual scores in a collective table, indicating the number of members selecting particular scores to tabulate network results.
- Together consider the results. What patterns do you see ? What results need further discussion? Over time, what has improved? What hasn't? Why?
